St. Anicet man drowns in Lac St. Francois

An 86-year-old man drowned Saturday, June 14, in Lac St. François, not far from his home in St. Anicet.

According to information obtained from the Sûreté du Québec (SQ), the man was working on his land, when he decided to take a break from the intense heat at the end of the afternoon and go swimming.

The man's son, who lives nearby, noticed the lifeless body floating in the water at around 7:30 p.m. as he was returning from kayaking with his

spouse. He attempted to revive his father while his wife called for an ambulance. Paramedics were unable to resuscitate the man.

The victim was identified as Jean-Pierre Clermont, age 86. He was taken to the Valleyfield Hospital where he was pronounced dead.

Police officers from the Haut St. Laurent SQ were called to the scene to investigate the circumstances of the drowning. An autopsy will be performed to determine the exact cause of death.
